Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Priority

2. None.

Drawings

3. None.

Claim Objections

Claim 2 is objected to because of the following informalities: In claim 2 , the phrase " claim1" is recited. There is no gap between the "claim " and "1". Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 2, 4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, the phrase "electron withdrawing or electron donating groups" is recited. This expression is vague and indefinite because the specification does not elaborate what is meant by the phrase "electron withdrawing or electron donating groups"; furthermore, there are no specific examples for them.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted step is: how to convert the resultant iminium salt to gabapentin. This is crucial because the cost and safety can be an issue during the reductive amination step in the industrial process.

In claim 2, the phrase "R¹ and R² are benzyl groups" is recited. This expression is vague and indefinite because the independent claim 1 has no limitation for R¹ and R² being benzyl groups. Therefore, there is insufficient antecedent basis for this limitation in the claim. Therefore, an appropriate correction is required.

In claim 4, the phrase "X is a benzyl ester, acid, or salt" is recited. This expression is vague and indefinite because the independent claim 1 has no limitation for X being the benzyl ester, the acid, or the salt. Therefore, there is insufficient antecedent basis for this limitation in the claim. Therefore, an appropriate correction is required.
